GENERAL INFORMATION

As we have already informed you, the 11th International IMACSSS Conference and the 5th World Scientific Congress of Combat Sports and Martial Arts in Rzeszów will be held on 13-15 October 2022 at the University of Rzeszów.

For some reasons we are going to abandon the Martial Arts Gala this time, but we are going to hold different workshops and demonstrations which will be described in more detail below.

As we all represent scientific institutions and the team of researchers, we promote the classical truth. Officially, there are 10 divisions of IMACSSS [www.imacsss.com]. The scientific topics of our Congress should correspond to the names of these divisions. It will probably be a session on historical and sports fencing. Members enrolled in particular sections are requested to animate some research activities in order to present the effects at the Congress.

Extended abstracts of proposed papers and posters as well as abstracts of workshops will be required for evaluation. The Scientific Committee will decide on the evaluation of papers, with regard to choice of oral presentations and poster proposals as well as workshop presentations.

The abstracts of papers and posters should include the description of the scientific problem, methods, results and conclusion. Similarly, scientific/research workshop presentations. In case of practical workshops, you need to give some information about the teaching methodology of the techniques, the training, improving special skills, the skills of self-defence and fight. You can give either general technique and tactics analysis or suggestions for specific practical solutions. So the authors of practical workshops should first give the abstract and during the workshop be able to make comments/explanations in the English language.

If any group of Congress participants wishes to give an open performance, you are kindly requested to provide an English commentator or an interpreter. The performance should last around several or fifteen minutes including the comment. We are planning only a few performance groups.

It will be organised the next edition of the IMACSSS Young Researcher Award.

We are going to prepare an Abstract Book and a special edition of the “Ido Movement for Culture. Journal of Martial Arts Anthropology” – with the best articles (which will successfully pass the review process).
